

SMART DESIGN FOR EASY LIVING.

Patented Levelift™ Technology

- The patented, flexible seat design curves, raising you up and out of the chair on a level plane for a safe and gentle lift that does not push you uncomfortably forward.
- The safe and sturdy seat-only lift will raise 100% of your body weight up to 300lbs.
- The slow and consistent speed allows your body to relax as you raise or lower yourself into position.
- Stoppable at any height, the Risewell lets you choose the position that best suits your needs.

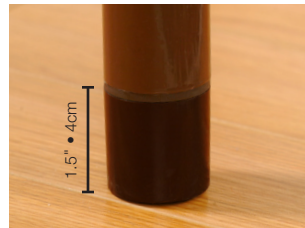

Easy-to-Use Power Lever

- The Power Lever is cleverly located below where the hand naturally rests on the arm of the chair. Simply press and hold the lever to gently raise or lower the seat.

Height Adjustable Legs

- Custom height-adjustable legs include a removable 1.5 inch (4cm) extension.

Removable Arm Covers

- Tailored, velcro-secure, 100% polyester arm covers may be removed.

WHY A LIFTING SEAT CHAIR?

- To maintain your independence.
- To reduce the possibility of either you or someone assisting you, falling or becoming injured as you struggle to stand from a seated position.
- To exercise muscles and joints.
- To save your strength for other activities.

Risewell **NEW!** LIFTING SEAT CHAIR

SMART, STYLISH, AFFORDABLE DESIGN

Risewell LIFTING SEAT CHAIR

The affordable lounge chair that can help you rise safely and gently whenever you choose.

Comfortable, casual style designed for home

- The Risewell offers affordable casual styling that fits with almost any décor.
- Designed to be discreet, this plush lifting seat chair is the perfect choice for the living room, den or bedroom.
- The space-saving, ergonomic design means it fits easily in small areas, corners and against walls.
- Attractive, easy-care 100% polyester fabric is available in either Cabernet or Midnight Blue to fit your décor and compliment your household furnishings.

My Risewell made our den accessible to me again. Now I can enjoy reading or knitting in my favorite room in the house.
- Mary
